

TRUCKLOAD

With over 70,000 carriers in our network, you won't have to worry about capacity for your dry, temperature-controlled, or flatbed shipping needs.

Our dedicated Account Managers work with you to find the best solutions and manage costs for your truckload shipping needs across the United States, Canada, and Mexico. Our experienced Team can help you with:

Arrangement of Dry van, refrigerated, hazmat, or flatbed freight needs

We find the right solution for your product and verify that all of the necessary equipment is in place.

Access to capacity with our network of 70,000 authorized carriers

All carriers in our network have been through our extensive vetting process. Before a carrier is chosen for your shipment, we ensure that they are current with all necessary regulations and requirements.

Arrange the transport of your freight and tracking it from origin to delivery

Trinity uses digital freight matching to maximize shipment efficiency, along with electronic freight tracking and check calls to make sure your freight arrives on time. Watch your product's journey from anywhere with our free Customer Portal.

24.7 access to your shipments and invoices

Your freight is never left alone. Our 24.7 team constantly tracks and solves problems 24 hours a day, 7 days a week. Check on your shipments and view invoices at any time in your Customer Portal.

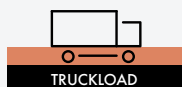

Canada and Mexico shipping

We assist our customers through customs, ensuring everything is in place to have a seamless cross-border experience.

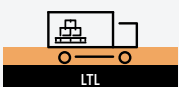

High-value or over-dimensional shipments

Trinity relies on premium carriers with high-value insurance, or can purchase shipper's interest insurance on your behalf. If your product is over-dimensional, we select carriers with all of the proper state permits.

Contact your Trinity Representative today for more information or visit trinitylogistics.com to discuss your company's unique needs.
